

MAP Activism Profile – 2004

Use this matrix to make connections with other MAP organizations having similar interests. Organizations have indicated their activism as (1) **deeply engaged**, (2) **moderately engaged**, or (3) **potential engagement**. "Potential engagement" means at least one person would like to be involved, but is not currently. The 17 issue categories were roughly compiled from member organizations' mission statements.

A number in the matrix with a **solid black frame** means at least one person is volunteering to serve as a MAP Resource Person. You can find out who that is by opening the "MAP Resource People."
